[CZARA FAQs 3.12.13-track changes.docx](#)

Thanks to all of you for all your comments on short notice. I went ahead and sent out the Q&A, since tomorrow looks to be a busy day, and I'm always a little paranoid about my computer crashing. Attached below is the version in tracked changes, though I made a few changes after this version. I put in everyone's comments and tried to meld them so it wasn't redundant.

The spreadsheet and bullet list that Allison sent was great. One thing I changed was the 319 calculation. When I looked at the spreadsheet, it looks like the wrong amount was carried over in Year 2 or 3 as the base amount to calculate the 30% penalty from. I put the new table in the briefing document. Let me know if I'm wrong on this and the #s in the spreadsheet are right.

Thanks again! I'll be very happy when Jayne comes back, but will keep on staying involved as I've been before. I had a Midcoast call today and left feeling a little depressed, so I'm glad that we're trying to have a broader-based discussion with the Governor's office.

Alan, I'm sorry I didn't get a chance to run this by you. FYI, for now, and we should talk more about how we plan to organize meetings especially with recent conversations with our attorneys and NWEA's.
